**A LEADING CONTACT CENTRE
FOR LAW FIRMS**

OUR EXPERIENCE

Lemon is a UK-based, 24/7 contact centre with over 20 years of experience in providing comprehensive support services. We work with leading law firms across the UK, specialising in both daytime and out-of-hours solutions to help them deliver exceptional client service and operational support.

Founded in 2003, Lemon Contact Centre was established with a passion to provide world-class customer service solutions. With extensive experience in handling complex and sensitive interactions, including working with Magic Circle firms, we have the expertise to support even the most demanding legal environments.

On partnering with Lemon, our team integrates seamlessly with your in-house operations as a natural extension of your firm's client support services. Our specialist 24/7 support ensures that your clients and legal staff receive continuous assistance, safeguarding a good work-life balance for your operational and client service teams while maintaining round-the-clock coverage.

Our outsourced switchboard services are designed specifically for law firms, ensuring incoming calls are answered promptly and professionally. This helps you maintain a consistent, high-quality client experience while reducing the risk of missed calls that can damage client relationships or lose business. By outsourcing your switchboard to Lemon, you can extend your firm's opening hours to 24/7 without the cost of hiring additional staff, providing clients with access to support whenever they need it.

Working with Lemon is straightforward, with stress-free onboarding and a dedicated account manager providing ongoing support from day one. Our highly trained operators follow your firm's protocols and can log interactions directly onto your existing case management and CRM systems, backed by clear and transparent reporting, robust quality assurance, and recorded calls.

Furthermore, bespoke support tools, such as Lemon's advanced diagnostic tool and comprehensive knowledgebase, empower our operators to quickly and efficiently triage calls. This facilitates higher levels of first-call resolution and prevents unnecessary disruptions to your legal operations.

“ Here at Lemon, we pride ourselves on our ability to support law firms with 24/7 client communication services designed to enhance operational efficiency and deliver seamless, professional assistance to both clients and legal teams. ”

Lemon provides round-the-clock call answering and support, enabling law firms to extend their client service beyond traditional office hours. This ensures clients can reach the firm at any time, which is critical for urgent legal matters and enhances client satisfaction.

Reducing Staff Workload & Increasing Productivity

By handling incoming calls, emails, and messages, Lemon frees up lawyers and administrative staff to focus on core legal work and business development activities, improving overall firm productivity and efficiency.

At Lemon, we are dedicated to delivering exceptional client service solutions for law firms by combining top talent with cutting-edge technology. As part of this commitment, we have made substantial investments in our technology infrastructure to support the unique demands of legal operations.

Our investment includes migrating our infrastructure and systems to the cloud, deploying the world-class Genesys Cloud contact centre platform, and implementing Grafana, an accessible analytics and interactive dashboard application. These advanced technologies empower us to provide unparalleled service, real-time monitoring, and actionable insights tailored to the needs of law firms.

We work closely with legal practices to identify and implement the optimal technology solutions needed to deliver exceptional client support, whether integrating seamlessly with existing case management systems, CRM platforms, or leveraging our Genesys Cloud platform. Our offerings are enhanced by bespoke tools such as our proprietary database, diagnostics tool, and comprehensive knowledgebase applications designed specifically for legal workflows and client communication protocols.

Our technology is built for seamless integration, and our agents are highly skilled at operating across a variety of third-party legal systems, ensuring efficiency, accuracy, and adaptability in every interaction. This enables us to support critical functions such as client call handling, urgent matter escalation, appointment coordination, and confidential communication with agility and professionalism.

We are committed to upholding and exceeding international standards in the form of ISO certifications, as well as PCI DSS compliance for secure card payment processing and GDPR compliance for data protection. Furthermore, our ISO certifications are awarded by UKAS-accredited auditors, providing you with complete confidence in the quality and security of our services.

“ Lemon has helped our law firm capture calls we would have otherwise missed. They have worked closely with us to enhance their call handling service and provide detailed daily reports, giving us valuable insights into the types of calls we receive and the number of new enquiries.
